Dear Shiva,

I am writing to congratulate you and your company on the excellent service and support we have experienced from yourselves.

The whole experience from our initial enquiry for the machine all the way through to commissioning and training has been very pleasurable and enjoyable. The time spent before the order to ensure the machine fully met with our requirements proved extremely useful as the machine, even at this early stage, has surpassed our expectations.

We would be pleased to recommend you and your company to anyone wishing to purchase a machine from you.

Yours sincerely,

K. M. Morris
Managing Director
